Red tea "Pu-Erh" is made from the semifermented tea leaves of "Camelia Sinensis", a process which gives it its characteristic red colour.

Used topically it clears sensitive skin, healing all of those small abrasions caused by the elements.

It is an excellent antiseptic and alleviates puffiness, burning and itching.

Its use in cosmetic products allows it to work directly on skin helping to eliminate dead cells and fostering the regeneration of new cells, naturally rejuvenating skin. This collection has the mild fragrance of Red Tea.

The **TERRA Red Tea** collection has no preservatives of the paraben family and paper packaging material is made from 100% recycled paper.

AQUA SPA MARINE ALGAE SEA KELP

(ASCOPHYLLUM NODOSSUM)

**CONTAINS
NO COLORANTS
OR PARABENES**

Algae contain trace minerals, mineral salts, vitamins and amino acids which skin cells are able to assimilate directly.

They also contain vitamin C, alginates and mannitol and are therefore a natural moisturizer and effectively eliminate free radicals which are the major cause of premature ageing of the skin "Free Radicals"

Thanks to sea kelp's composition and mode of action, it acts as a tonic, cell regenerator, has antiseborrheic properties, helps drain excess fluid and is soothing.

The presence of chloroglucinol and bromophenol endow it with antibacterial properties.

You probably didn't know that...

One kilo (2.2 pounds) of algae (seaweed) has as much iodine as 10,000 litres of sea water and is 500 times richer in calcium and vitamins than the sea water it thrives in.

The AQUA SPA Marine Algae collection contains no artificial colouring or preservatives of the paraben family.

- Mineral Mud Soap 30g/1.06 oz.

The Dead Sea is the lowest place on earth (410 m / 1,345 feet below sea level). Since ancient times it has been known for its high concentration of natural minerals. Its waters are so dense due to the high level of salinity that one can float there effortlessly.

A great many studies have proven, beyond a reasonable doubt, the effectiveness of its mineral components in the treatment and prevention of different maladies such as psoriasis, acne and rheumatism. Down through the centuries people have come to the Dead Sea from all corners of the earth to bath in its waters and receive mud treatments which are unique and not found in any other part of the world.

Idamenities Europe, with its wealth of experience in the manufacture of cosmetics, is proud to present the prestigious brand BALNEA the Dead Sea Source developed especially for hotels, resorts and spas in an "Amenities" format.

All of our cosmetics, produced entirely in situ at the Dead Sea, are made of top quality ingredients and natural plant extracts and feature a high concentration of minerals and salts extracted from the Dead Sea.

The BALNEA the Dead Sea Source line of cosmetics was developed for your most demanding clients featuring products of proven quality.

(*CAMELIA SINENSIS*)

**YOUR CUSTOMERS
WILL BE GRATEFUL**

ZEN SPA Amenities featuring Green Tea. Natural skin care. Your customers deserve the best.

The ZEN SPA "Green Tea" throw-away cosmetics collection uses natural ingredients rich in antioxidants such as green tea (*Camelia sinensis*).

Green tea also acts as a natural anti-inflammatory and has soothing properties as well. It is an excellent anti-septic and alleviates puffiness, burning and itching.

"It protects the skin not only by softening and healing

but also helps reverse the damage caused by harmful sunrays which is why it is increasingly being added to all types of cosmetics.

The "Green Tea" ZEN SPA collection contains no preservatives of the paraben family (methylparaben, ethylparaben, butylparaben, propylparaben) and features considerably less plastic packaging thus making it more environmentally friendly.

SOAPS & SACHETS

www.snc.com.sa

The image features two white, rectangular soap bars resting on a dense layer of white, irregularly shaped soap granules. The bars are positioned diagonally, with one slightly behind and to the right of the other. The granules are small and pebbly, filling the entire background. The overall scene is monochromatic, with various shades of white and light gray.
